

Data sheet

Features

- Original UltraFlex: Specially developed for the highest requirements.
- Ultra-flexible: Smallest bending radii for tight spaces.
- Optimal installation: Simple and secure cable management.

Description

The UltraFlex power cable extension from C13 (180°) to C14 (180°) enables the smallest bending radii and improved installation. The extension is also significantly more durable than standard cables. This guarantees high flexibility and reliability for connections between computers, servers, or other devices. Ideal for meeting the demanding requirements of mobile, tight, and dynamic installations. Discover it now and rely on the original.

Connections

Connection 1	C13
Orientation 1	180°
Case 1	Plastic overmolded
Case color 1	black
Connection 2	C14
Orientation 2	180°
Case 2	Plastic overmolded
Case color 2	black
