

Data sheet

Description

The magnetic USB4 3x2 adapter enables a secure and convenient connection of high-performance USB-C devices. The magnetic coupling protects the port from mechanical strain while supporting high charging capacities and high-resolution video transmission. It is particularly suitable for workstations with frequently changing devices. The 90° angled design facilitates cable routing in fixed, space-critical installations. - Magnetic connection to protect the USB-C interface - Support for high charging capacities and video transmission - Convenient connection and disconnection in everyday use

Connections

Connection 1	USB Type-C plug
Orientation 1	90°
Shielding 1	Shielded
Connection 2	USB Type-C socket
Orientation 2	180°
Shielding 2	Shielded
Case 2	Aluminum
Case color 2	Dark grey

Signal transmission

Standard	USB 4 3x2 240W/ 5A
Bandwidth	40 Gbps
Resolution	up to 7860 x 4320

Standards

Approval	-
Compliance	RoHS Reach CE
Temperature range	-10°C ~ +60°C

Item No.	EAN
USBC-MA-2	4262565910682
