Data sheet

Description

With the professional HDMI cable assembly kit, you can customize cable lengths and pull cables through narrow conduits. The patented HDMI-A connector enables fast connections. The triple-shielded cable (AWG 24) supports lengths of up to 20 meters at 1080p resolution and 12-bit color depth. The kit includes 10 metal connectors, a cable tester, special tools, and 5 compression guides. Individual parts can be ordered separately.
