

DATASHEET

Active AOC Fiber Optic Cable 8K60Hz 48 Gbps 15m black
compat. w. HDMI 2.1/2.0

General data

This black HDMI™ fiber optic cable from EFB-Elektronik meets the requirements for HDMI™ Version 2.1a and supports a maximum resolution of up to 8K@60Hz. It is therefore compatible with the 8K UHD video standard and truly shines when used with TVs. The HDMI™ standard is backward compatible and works with a wide range of devices. Thanks to a bandwidth of 48 Gbit/s, even particularly high-quality media can be easily transmitted.

- Cable type: active optical to prevent signal attenuation and loss
- With built-in chip for amplification
- Contact material: gold-plated contacts for reliable transmission quality

Product advantages

HEC-compatible devices allow the transfer of network data via an integrated Ethernet channel, eliminating the need for an additional network cable. Media playback becomes even more vivid thanks to HDR10, which transmits a wider color spectrum and finer brightness nuances.

Product description

TPE forms the cable jacket. The HDMI™ Type A connectors feature a zinc alloy housing, which helps prevent damage.
