Description

The CEE 7/7 (90°) to CEE 7/3 (180°) extension cable with H05-W-F3G 3x1.50 mm² cable is suitable for the reliable extension of power connections in professional IT, industrial and electrical environments. The angled CEE 7/7 plug simplifies installation in confined spaces, while the inner conductor made of pure copper supports safe and stable power transmission. The robust H05-W-F3G cable is designed for long-term use in demanding installation environments. Standards & Certifications - KEMA-KEUR, ENEC The products are labeled with a paper tag only; plastic bags and plastic cable ties are not used.
