

MONITORED 1x16A PDU

PDU technical data of series MXLJ0VT21x

- 21 x IEC320C13 sockets outlet max. 10A/230VAC
- Plastic elements colour: light-grey RAL7035
- Natural anodized aluminium body
- Dimensions without mounting brackets (WxHxD): 44x861x46mm
- Vertical mounting in 19" rack – 0U
- Mounting brackets for installation in 4 orientations
- 3-meter supply cable H05VV-F.3G1,5mm² in white or black colour.
- Supply cable terminated IEC60309 plug blue 1-phase (16A/400V).
- Maximum current 16A (3680 W).
- AC ammeter with 3 digits LED display
 - Measurement range 0,1...16A.
 - Measurement accurate ±2,5%.
- Built-in web server monitoring function of the current load of individual circuit blocks
- Web interface: Ethernet RJ45 (Ethernet 10/100BaseT)
- Protocols: TCP / IP, HTTP, SNMP, SMTP, Syslog, DHCP
- Protection level IP20.
- Declaration of Conformity CE.
- Standard warranty 2 years.
